DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13 and 25-33, drawn to a method of using an addressable array and apparatus, classified in class 702, subclass 20.
- II. Claims 14-20, drawn to a method of using multiple addressable arrays, classified in class 702, subclass 20.
- III. Claims 21-24 and 34-36, drawn to a method for generating addressable arrays and central fabrication station, classified in class 435, subclass 6.

The inventions are distinct, each from the other because of the following reasons:

Each of the methods can be shown to be distinct as they each have different starting materials, method steps, and goals.

Because these inventions are distinct for the reasons given above and the non-patent literature search required for each group is not coextensive with that for any other group, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
